

DERBY PUBLIC SCHOOLS

NEW STUDENT - HEALTH REQUIREMENTS FOR SCHOOL ADMISSION

The Derby Public Schools and the Connecticut Department of Public Health require primary immunization and a school health assessment prior to initial school enrollment. If you have a child entering pre-K /Kindergarten this fall or are new to Derby, please read the following:

ALL new students **must provide** specific mandated health information to the School Nurse in their school **before** being permitted to enter. The physical assessment that your physician will perform **must** be recorded on a blue CT HAR form, which is available at the school or the Board of Education. The assessment must be performed by a physician licensed in the United States and it must be dated within one year prior to date of registration/entry into school. **Parents are advised to review this form with their physician to insure completeness. Without a completed form students cannot start school.**

REQUIRED INFORMATION
